SOCIAL AND POLITICAL ACTIVITIES

05/05/2021 – CURRENT Greece

President of the board of the Hellenic Youth Workers Associations

The "Hellenic youth Workers Association" was established in 2017 by Greek youth workers. The Association's primary goal is to enable, develop and strengthen knowledge of youth work and its practice to achieve recognition of the profession of Youth Worker in Greece. As youth work is not recognized yet in Greece, there are no professional pathways for practitioners in the youth sector and no official Greek wording for the profession.

The **Hellenic Youth Workers Association (HYWA)** is advocating the development of a sustainable youth strategy and the recognition of Youth Work in Greece. The **HYWA** acknowledges the passionate and dedicated commitment to youth work and aims that youth workers in Greece will have a credible professional career pathway.

The **Hellenic Youth Workers Association** is working towards:

- Creating a framework for the recognition and certification of the profession of youth work in Greece and its contribution to young people for their development.
- *Fostering the growth of the professional practice, quality and identity of youth work*
- The development of professional educational pathways for youth workers
- For the contribution to the development of a national youth strategy
- The development of new practices and methods for its members and their target groups with a focus on digital Youth Work.
- *Promoting the value and ensuring the quality of youth work practices*

The collective capacity of the association is very high in terms of project management, implementation and development of sustainable and innovative results. The **HYW Association** has 50 members from all over Greece. It is governed by the Board and the General Assembly and has its own Scientific Committee which analyses, suggests and develops formal documents, research and curriculums tailor-made for the youth workers in Greece.
